

GIVING IN ASIA-PACIFIC

CAF America is a leading global grantmaking organization assisting corporations, foundations, and individuals. For over two decades, we have broken down barriers to cross-border philanthropy by streamlining the grantmaking process and taking on the fiduciary risk and administrative burden. Through our work, we help donors support great causes by assisting them in making strategic, effective, and tax-advantaged grants anywhere in the world.

Since 2008 alone, CAF America has made nearly 1,500 grants totaling over \$25 million to more than 250 charities in 17 countries throughout the Asia-Pacific region.

Solving the many challenges facing our world is a daunting task. It requires a dynamic, innovative and impactful approach to philanthropy. It takes a smart and thoughtful strategy -- one that enables all people to become philanthropists in their own right so that they feel empowered to reach out across the world and help those less fortunate with a hand up, not just a hand out.

Within the field of international philanthropy, the Asia-Pacific Region has posed a significant challenge for some grantmakers due to language, cultural, and administrative barriers in the region. In addition, many Asian and Pacific charities are not knowledgeable about U.S. donors' legal requirements to make a grant to them.

CAF America, however, has consistently demonstrated to its valued donors that giving in this region does not have to be burdensome or difficult. Since 2008 alone, CAF America has made nearly 1,500 grants totaling over \$25 million to more than 250 charities in 17 countries throughout the Asia-Pacific region.

We have proven time and time again that we can effectively assist donors by providing an all-encompassing review of any charitable organization in the region, as well as the completion of a thorough due diligence screening to reduce the chance of funds being improperly used or illegally diverted.

Given the evident interest in giving to the Asia-Pacific region, we are launching a new service designed to enhance our current offerings to donors: the CAF America Asia-Pacific Advisory Services (CAAS).

Our extensive grantmaking history in the Asia-Pacific region exemplifies a clear capacity to serve our donors with an interest in the region, but as the leader in global giving, we want to offer more.

CAAS has been established to bridge any gap that may exist between donors, investors, and charitable organizations in the Asia-Pacific region. Our team of professional advisors has on-the-ground expertise throughout the region. This service enables donors to more easily fulfill the legal requirements for making a grant to an Asian-Pacific charitable organization while receiving a tax benefit under U.S. law.

CAAS INCLUDES:

- Strategic advice, landscape studies, and identification of high impact and scalable programs
- Risk mitigation and full service grantmaking; 100-step due diligence review of charitable organizations in Asia and the Pacific before a grant is made
- Grant monitoring and impact reporting
- Advice on laws and standard practices for charitable organizations in the Asia-Pacific region
- Translation support
- Project management
- Collaborative opportunities

OUR CLIENTS:

- Corporations
- Foundations
- Families and Individuals

CAF ALLIANCE OFFICES INCLUDE:

- CAF South East Asia
- CAF India
- CAF Australia
