

# GRANTS MANAGEMENT SERVICES

CAF America understands the administrative and strategic resources required to implement successful giving programs. Working with a select group of valued clients—both corporations and foundations—we have developed extensive experience in providing customized Grants Management Services.

Partner with CAF America to extend the efficiency and impact of your team, allowing you to focus on the tasks that will deliver the best results for your organization and the communities you serve

## CAF AMERICA'S GRANTS MANAGEMENT SERVICES

Speak with us about how we can support your business or foundation by:

- Identifying suitable beneficiaries in your field to increase the quality of your applicant pool: CAF America works through our partners in the CAF Global Alliance and with our advisory networks in Asia and Africa to identify reliable beneficiaries for your grant programs.
- Consolidating grant applications to minimize burden on participating charities: CAF America's eligibility requirements can be integrated with your unique grant application, minimizing the administrative burden on your prospective beneficiaries.
- Issuing proposals and providing troubleshooting support throughout the Open Application Period: Our grants management staff are experienced in supporting open applications, serving as the main point of contact, and fielding questions from potential applicants.
- Performing preliminary or complete reviews of all submitted applications: Working with your team, our services can be integrated into your application review process at any stage, allowing you to control the level of oversight.

Regardless of the structure of your grants application process, CAF America can establish protocols to generate efficiencies for both your staff and any participating beneficiaries. All of this can be conducted either through your grants management system or via CAF America's own grants portal. We work closely with our clients and their technology providers to issue applications, review applications to ensure completion, conduct the requisite vetting, and issue grants.

Whether we fully integrate ourselves into your technology platforms or work to customize our own to fit your needs, CAF America's Grants Management Services are a valuable addition to any grant program.

### ABOUT CAF AMERICA

CAF America is a 501(c)(3) public charity and intermediary for international and domestic donor-advised grantmaking. In the past 5 years we have issued nearly \$440 million in donor advised grants to thousands of charities in over 100 countries. In addition to these grantmaking activities, we offer a full range of services for all types of philanthropic activities. Our services enable your organization to better allocate and utilize its staff by taking on the administrative burden of grants program management.
