Advantages of a Donor Advised Fund with CAF America

Regulatory Compliance
CAF America’s grantmaking protocols go above and beyond to meet IRS regulations. All reporting required by the IRS and ongoing compliance with relevant rules and regulations is managed by CAF America’s team, eliminating any administrative burden for you or your advisor while ensuring total regulatory compliance.

Grantmaking Risk Mitigation
Conducting your philanthropic activities through CAF America removes all risks associated with cross-border grantmaking from your foundation, including those pertaining to the requirements of the USA PATRIOT Act, OFAC Sanctions, or other laws that govern international financial transactions.

No Unnecessary Costs
When using a DAF, fees are leveraged in proportion to the activity of the Fund, allowing you to maintain full control over your expenses for these programs. Establishing a DAF at CAF America is free and donors benefit from a tiered fee structure for their giving.

Complex Asset Conversion
CAF America regularly accepts complex or illiquid assets, from artwork to stocks to real estate. We can work with your advisor to ensure that any gifts of complex assets are efficiently turned into charitable giving, while maximizing tax benefits.

Expertise and Flexibility
Founded in 1992, CAF America has unparalleled expertise in turning donors’ philanthropic visions into reality. Our experienced staff are available to work with you or your advisor to ensure that our services align within your larger estate or giving plan. CAF America has offices in the DC area, San Francisco, London, Toronto, and Vancouver and is a member of the CAF Global Alliance, which spans six continents, giving our clients a truly global reach.
